

Multi-use Access Pathway

LEGEND

 NATURAL BUSHLAND: To be retained & protected.	 EXISTING PATH: Refer action.
 RESERVE AREA	 PROPOSED SIGNAGE
 COMMUNITY SPACE: Refer action.	 WETLAND BOARDWALK: Refer action.
 SOUTH CREEK: Refer action.	 WETLAND: Refer action.
 SECONDARY PATHS	 RTA & DoP Land: Refer action.
	 SHADE TREES: Refer action.

LOCALITY PLAN

ACTIONS

A. SIGNAGE

Signage is to provide corridor / reserve names & directional, compliance & interpretive information as required (Refer Action 31). Directional signage may include points of interest such as the wetlands & boardwalk crossing.

B. BUSH RESTORATION & HABITAT PROTECTION

Expand the weed eradication & prevention program along South Creek & with the reserve (Refer Action 5).

Undertake an assessment of the reserve to identify potential new areas for bush & habitat restoration. Develop restoration plans for these new areas & any identified endangered communities & remnant habitat areas within the reserve. (Refer Action 2 & 3).

C. CREEK LINE

Improve & stabilise the creek as outlined in the *Floodplain Risk Management Studies & Plans* & the *Warringah Creek Management Study* (Refer Action 7).

D. TRACKS & ACCESS

As part of the shared track network upgrade the existing pathway in the Multi-use Access Pathway Reserve. (Refer Action 23).

E. WETLANDS BOARDWALK:

Consider developing a boardwalk through the wetland area. Structure could feature interpretive information, & viewing platforms/hides for observing & resting. (Refer Action 30).

F. SECONDARY PATHS:

Develop new pathways which link shared pathway to points of interest and minor reserve entry points. (Refer Action 25).

G. PICNIC AREA

Develop a community space considering the provision of furniture etc that will create a sense of character, improve safety, access & usability of the area (Refer Action 22).

H. ROAD CROSSING

Develop appropriate road crossings on Campbell Ave & North Fisher Rd to link proposed pathways & reserve (Refer Action 23).

I. LAND TENURE & OTHER LAND:

Obtain control of the RTA wetlands through gazetting the land as public land under section 159 of the Roads Act 1993. Protect & restore wetlands to ensure the ongoing preservation of this area. (Refer Action 10).

J. HABITAT DEVELOPMENT:

Additional habitat areas are to be developed as proposed in the 'Local Habitat Strategy' & supporting 'Restoration Plan' for Dee Why Park (Refer Action 4).

K. SHADE TREES:

Increase the planting of shade trees (Refer Action 40). Species to be in accordance with Local Habitat Strategy.
